TOOL POUCHES & HOLDERS

POUCHES & HOLDERS BELTS & BRACES
BAGS & CASES GEAR & EQUIPMENT

REMARKABLE COLLECTION

We are pleased to present a collection of Makita Tool holders and Pouches, created in a modern, aggressive design, full of smart solutions and rich in unique equipment.

Most of the products can be joined together with other elements providing two-in-one, three-in-one or even all-in-one systems.

The Makita range is the perfect choice when it comes to storing and carrying tools.

These products will serve as a strong marketing tool and help to build the recognition of the Makita brand.

INTRODUCTION	1
TECHNICAL SOLUTIONS	2-4
POUCHES & HOLDERS	5-9
BELTS & BRACES	10-13
BAGS & CASES	14-19
GEAR & EQUIPMENT	20-22

Technical Solutions:

STRAP BELT SYSTEM

Strap Belt System with quick release buckles at the ends can be easily detached from the Tool Bags and worn on the waist as a light-duty tool belt. Fits all Tool Pouches and Holders as well as Tool Organizers.

HEAVY-LOAD SUPPORT SYSTEM

Heavy-Load Support System provides additional support for Super Heavyweight Tool Belt and Set by distributing weight between waist and shoulders. Comfortable to wear and reducing stress through the working day thanks to extra thick 20mm cushioning.

WATERPROOF BOTTOM

Waterproof Bottom is a high quality solution for tool bags – rigid, wear-resistant and waterproof it keeps tools dry and protected from damp and wet surfaces. The reinforced plastic base also helps you to keep your tool bag clean.

ANTI SLIP

Anti-Slip Solution minimises or even avoids workplace slip and fall accidents. The high quality polypropylene tape has a rubbery surface which helps to keep your tools in place and provides additional protection to help prolong the life of your products.

3 LAYERS

3L Technology is a unique 3-layer combination of polyesters and foam that provides extra cushioning. Designed to be tough and weatherproof, these amazingly light polypropylene panels are made up of three composite layers joined securely in a desirable configuration. The innovative feature of these structured core panels means that they can be formed into any shape.

Real Leather is smooth on the outside with brushed suede on the inside. Strong and tough for a long life but soft and supple enough for lasting comfort, whilst providing excellent strength with added abrasion resistance. Heavy gauge leather has been selected for use in products requiring a thicker covering - 1.8 to 2.0mm - ensuring a top quality product.

Durable Riveting gives truly unbreakable strength. Strong one piece self-punching rivets with washers used in all high stress areas. Washers for greater strength in strategical places are used on one or both sides, up and down.

Elastic Loops secures the contents and keeps your tools in place while carrying. It provides great flexibility for organizing your tools and accessories. Elastic Loops have been applied to a wide variety of our products to ensure that you get maximum usage from your kit. The loops are able to adapt to perfectly suit all tools and accessories.

Belt Loop Holder is a heavy-duty combination of steel D-ring with strong polyester tape to hang anything with carabiner. It keeps the item secure, allowing your pocket to be free for other accessories. Belt loop holder solidly slides onto the belt and stays there. You can use as many loops as needed - handy to hook on small accessories, knives and keys.

STRAP

STRAP BELT SYSTEM

BELT

System as STRAP

Totally New on the market - unique STRAP Belt System with quick release buckles at the ends makes the belt multipurpose. Strap with comfortable soft rubber shoulder pad makes the lifting more comfortable. Fits to all Makita Tool Bags and Cases.

System as a BELT

Strap BELT can be easily detached from any Tool Bag or Tool Case and worn on the waist as a light-duty belt. Strap can be adjusted, which is flexible and convenient to fit your need. Can be worn with any Makita Tool Pouch and Holder.
