(Adapted for SDS-MAX)

Powered by 40V MAX Lithium-Ion Battery

Heavy Duty with Superior Power

As Powerful as AC model - Achieved with Makita's Innovative Technologies

High Performance with Powerful Brushless Motor

Delivers high impact energy to handle the most demanding applications

Dust Free Operation with an Auto-Start Wireless System (AWS) Dust Extractor

Utilizes Bluetooth technology for wireless power-on/off communication between tool and dust extractor

Low Vibration achieved with Advanced Anti-Vibration Technology (AVT)

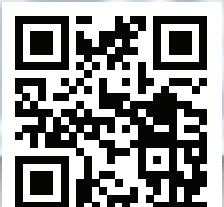

AVT is a synchronized system that actively works to reduce vibration

Good Control with Active Feedback-Sensing Technology (AFT)

AFT which turns the motor off, if bit rotation is suddenly forced to stop
