## 3 in 1 Lawn Mower : Cutting, Collecting, Mulching

### Higher mowing performance

The blade position is designed to tilt down towards the front of the mower to minimize the double cutting and reduces the machine's workload, resulting in lower energy consumption thereby enhancing the grass collecting performance

### Easy-to-operate handle lock levers

- Side handle can be locked/unlocked with just a single action without tool
- Allows for easier folding of handle when storing or transporting the mower

### Verticle Storage

### Effortless Mowing

is achieved by designing the shape of switch lever to reduce the force required to pull switch lever to turn on the mower

Pull force required to turn on the mower  
Approx. **11 N**

### Grass Level Indicator

### Warning Lamp Indicates

- Battery capacity
- High temperature
- Overload

### Water resistance Cutting Deck

The inside of cutting deck can be washed with low pressure water

**XPT**  
eXtreme Protection Technology / IPX4-compatible

### Easier cutting height adjustment

- Easy-to-grip egg shaped lever top
- U-shaped notches making it easy to adjust cutting height
