

Concrete Screed XGT VL001G

Product Description

• 40V MAX XGT • BL • XPT

Cordless Concrete Screed XGT

The VL001G is a cordless screed powered by a 40Vmax XGT Li-Ion battery, designed for concrete finishing and tamping applications. With interchangeable blades, it supports working widths of 900 mm, 1,400 mm, and 1,800 mm to suit a wide range of jobsite requirements.

A lightweight design provides excellent maneuverability, while the brushless motor and constant speed control help maintain stable vibration performance for efficient finishing work.

Product Features

- ⊙ A lightweight shaft drives an unbalanced weight near the blade, resulting in a lighter tool with excellent maneuverability.
- ⊙ Powered by an XGT battery and brushless motor, the tool delivers stable concrete finishing and tamping with constant speed control.
- ⊙ The rubber grip helps reduce hand vibration, and the wide grip area allows hand positions to be adjusted as needed.
- ⊙ The switch cover reduces the risk of concrete or similar materials causing the trigger and lock-on button to stick.
- ⊙ Anti-restart function minimizes accidental start-up.
- ⊙ High water-resistance with XPT (eXtreme Protection Technology)

Product Specifications

Working Width	900 / 1,400 / 1,800 mm
Vibrations per minute	11,000 min-1
Continuous Use	150 min. (BL4040F) (Blade: 1,800 mm)
Dimensions (LxWxH)	L: 1,562mm, W: 935 / 1,435 / 1,836mm, H: 258 mm (with blade: 900 / 1,400 / 1,800 mm)
Net Weight	4.36 / 4.66 / 5.26 kg (without battery) (with blade: 900 / 1,400 / 1,800 mm)
