

Concrete Vibrator XGT VR001G

Product Description

40V MAX XGT

XGT® Battery powered Concrete Vibrator for professionals

The combination of XGT battery and Brushless Motor of the machine delivers more run time with maximum vibrations per minute for strengthening concrete in a wide variety of applications such as floors, columns, walls, piers and stairs.

- Two power mode selection (normal/power) allows to use the machine for a wide range of jobsites:-
 - Power mode: For a wide range of concrete compaction, such as of soil floors, pillars, and mat foundations
 - Normal mode: Ideal for delicate works, such as step finishing or closure of temporary construction openings, where concrete is required not to flow out of the mold
- Constant speed control allows for stable compaction work
- Lock-on switch reduces hand fatigue in long continuous operation
- Compact and ergonomic design and weight only 1.4kg (without battery) for reduced operator fatigue
