

High Pressure Washer XGT HW001GZ

Product Description

40V MAX XGT • 115 bar

Model HW001G is a cordless high power washer powered by 40Vmax XGT® Li-Ion battery (two in parallel or one).

HW001G delivers high washing power similar to that of corded models thanks to its maximum permissible pressure which reaches 11.5MPa (115 bar) and maximum water flow rate reaches 7L/min.

- Adjustable pressure function with 3 modes for wide range of cleaning applications
- Equipped with a self-priming function, enabling it to draw water, not only from faucets, but also from various water reservoirs such as tanks and buckets without the need to operate the air valve
- Longer run time is achieved with parallel battery function
- WetGuard / IPX5-compatible ensuring safe operation in wet environments
- Range of optional accessories available to suit multiple cleaning applications

In locations without an AC power outlet and no access to a water supply faucet, HW001G becomes an essential power washer for your cleaning requirements.
