

Pin Nailer XGT PT001GZ

Product Description

40V MAX XGT • 15 - 35 mm

Cordless XGT® Pin nailer for finishing work.

PT001G is developed mainly for interior nailing operations where a high quality finish is required, such as installation of baseboards, crown moldings and more. The use of BL motor and redesigned driving spring makes its operation nearly as equivalent to a Pneumatic Pin Nailer.

Brushless Motor of PT001G enables fire 20% faster than LXT model DPT353 model.

- Improved Driver Durability achieved by redesigning the shape of the driver tip and reducing thin places
- Low Recoil Mechanism enables easier nailing of long pins without pushing down the pin nailer firmly and also achieves high-quality finish nailing
- Fires both vertically and horizontally. Nails can be fired in the groove of baseboard
- Contact Arm Mechanism enables "continuous nailing" and "drag nailing"
- Compact & Lightweight
